## INTERNATIONAL PRELIMINARY EXAMINATION REPORT

International application No.

PCT/AU2003/000750

## L Basis of the report

## 1. With regard to the elements of the international application:\*

the international application as originally filed.

the description, pages , as originally filed,  
pages , filed with the demand,  
pages , received on with the letter of

the claims, pages , as originally filed,  
pages , as amended (together with any statement) under Article 19,  
pages , filed with the demand,  
pages , received on with the letter of

the drawings, pages , as originally filed,  
pages , filed with the demand,  
pages , received on with the letter of

the sequence listing part of the description:  
pages , as originally filed  
pages , filed with the demand  
pages , received on with the letter of

## 2. With regard to the language, all the elements marked above were available or furnished to this Authority in the language in which the international application was filed, unless otherwise indicated under this item.

These elements were available or furnished to this Authority in the following language which is:

the language of a translation furnished for the purposes of international search (under Rule 23.1(b)).

the language of publication of the international application (under Rule 48.3(b)).

the language of the translation furnished for the purposes of international preliminary examination (under Rules 55.2 and/or 55.3).

## 3. With regard to any nucleotide and/or amino acid sequence disclosed in the international application, the international preliminary examination was carried out on the basis of the sequence listing:

contained in the international application in written form.

filed together with the international application in computer readable form.

furnished subsequently to this Authority in written form.

furnished subsequently to this Authority in computer readable form.

The statement that the subsequently furnished written sequence listing does not go beyond the disclosure in the international application as filed has been furnished.

The statement that the information recorded in computer readable form is identical to the written sequence listing has been furnished

4.  The amendments have resulted in the cancellation of:

the description, pages

the claims, Nos.

the drawings, sheets/fig.

5.  This report has been established as if (some of) the amendments had not been made, since they have been considered to go beyond the disclosure as filed, as indicated in the Supplemental Box (Rule 70.2(c)).\*\*

\* Replacement sheets which have been furnished to the receiving Office in response to an invitation under Article 14 are referred to in this report as "originally filed" and are not annexed to this report since they do not contain amendments (Rules 70.16 and 70.17).

\*\* Any replacement sheet containing such amendments must be referred to under item 1 and annexed to this report

**V. Reasoned statement under Article 35(2) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement****1. Statement**

Novelty (N)	Claims 3-30, 32-33, 35-39, 42-56, 59-71, 73, 77-79, 81-83	YES
	Claims 1-2, 31, 34, 40-41, 57-58, 72, 74-76, 80	NO
Inventive step (IS)	Claims 3-30, 32-33, 35-39, 42-56, 59-71, 73, 77-79, 81-83	YES
	Claims 1-2, 31, 34, 40-41, 57-58, 72, 74-76, 80	NO
Industrial applicability (IA)	Claims 1-83	YES
	Claims	NO

**2. Citations and explanations (Rule 70.7)**

The claims 1-2, 31, 34, 40-41, 57-58, 72, 74-76, 80 are not novel and lack an inventive step regarding the following citation:

US 5405516 A (Bellon) 11 April 1995

This document discloses an apparatus for the separation of biological samples comprising an electrophoretic slab support characterised by a support comprising a porous membrane composed of a hydrophilic material supporting a plate impregnated with a gel material. Further, examples of polysulfone being used for the membrane and agarose as the gel, are disclosed.
